THE PRINTERS' STRIKE.

THE ALDERMEN AND ASSISTANT ALDERMEN DRIVEN TO THE WALL.

The Politicians and the Workingmen-Reports of the Committees on on Printing of both Boards-A Peculiarly Polite Request -A Fearful Joke upon the Board of Aldermen.

The Printing Committees reported yesterday,

and the Aldermen and Assistants adopted the re-ports requesting Massrs. Jones & Rogers to pay the prices demanded by Typographical Union No. 6. The uncommon rush for seats in the chambers of both Boards of the Common Council made it clear to the mercat tyro in City Hall matters that some-thing of greater than ordinary interest was going on. After the transaction of some routine business in the Board of Alberton, the report of the Committee on Printing in relation to the resolutions of Typo-graphical Union No. 6 was taken up and read.

now the politicians handle the subject.

The report sets forth the painful embarrassment in edds that nevertheless they gave the committee, but careful consideration. They greatly deplore any mesunderstanding between employers and employed in any art or business, but more especially in the "art preservative of all arts." It is a deplorable and incontrovertible fact, the Committee facetionaly sid, that since the beginning of the difficulties between the employing and employed printers over \$200,000 worth of work, principally "reprint," has cheaper and strikes less frequent.

The Committee call attention to the strike of the ship carpenters and Joiners two years ago, and its deplorable results. They say that it utterly destroyed shipbuilding in this port, and drove it to other places. The report next adds that the printing conhas been well and faithfully done by the contractors. To direct Messes. Jones & Rogers to pay any stipufated price for labor would be a direct violation of the contract, and would lay the corporation open to an action for damages.

WHOLESOME DREAD OF THE LAWYERS. The Committee believe that the interests of the city, which it is their duty first to protect, require that they should keep out of such a lawsuit. It would be positively in violation of the sacred duty of the members of this Committee to violate the contract, and the Corporation interests would be certain to suffer serious injury. But the action asked for by the Typographical Union could not be justified even that the firm complained of -W, nkoop & Hallen beck -are willing to pay the printers' scale on city work, and the Common Council have no right to interfere with the private business of any firm.

THE COMMITTEE'S INNATE SENSE OF JUSTICE. The precedent established by one such interference would most assuredly be followed by so many others that the entire time of the Common Council would be occupied in the fruitless and unsuccessful attempt to reconcile the innumerable differences arising in other departments of labor. A more profitiess undertaking cannot be imagined. Com-binations among operatives to secure advantages are well enough in their way, and if successful it must be by the force of the innate justice of their claims and not by a violation of existing statutes.

But special legislation, with a view of securing any such advantages, is like a two-edged sword that cuts both ways. Employers, as well as employees, may ask for such legislation, and if capital enters the legislative arena against labor, which, the Committee asks, is the most likely to secure the advantage? But one answer, the Committee opine, will be opinen, and that not a very satisfactory one for labor.

THE LYCURGUSES NOT SWAYED BY PUBLIC CLAMOR. The report further protests against the efforts that have been made to coerce the Committee into presenting a favorable report both by publications in the press and by forwarding circulars to trade unions, to injure the members of the Common Coun til personally and politically. Such action had contrary effect to that intended; but the self-respec of the Committee would not allow them to be con

WHERE THE LAUGH COMES IN.

to pay the "scale of price." adopted by such Unions for this such printing is given by resolution to Messra. If Jones & Co., and that although that firm have expressed themselves willing to pay such "scale." they have made no effort to induce their crinters. Messra. Wynkoop & Hallenbeer, to pay such prices; and as the city as an employer should be one of the first to accede to all reasonable demands of workingmen, as this demand is acknowledged to be therefore be it. Recolved, that Educated to the scale of the consorters in their employs or the description of the consorters in their employs or the description of the work, most only on the city work, but on all work dome in that office, or that as different employs to the consorter to the consorter than a consorter to the consorter than a consorter than the cons

While this comedy was on in the Aldermen's chamber, a lively scene was presented in the chamber of the Assistant Board. Here the Committee or Printing presented a report couched in less forma but more favorable language. But like their elder bretaren, the Assistants could not interfere, with the venerable printing contract, and therefore they reported the following, which was adopted:

the working printers the same concession as to prices for general work which they have concelled to them for the city work.

This resolution and report brought Alderman Cras. C. Pinckney to his teet, and, holding up the city charter, he read therefrom, for the beautiff, as he said, of some new members of the Buard who might not be so well informed, an extract, which requires the city to advertise and award its contracts to the lowest bidder on all work requiring an expenditure of more than \$250 at one time. Here was a contract swinded to Jones & Co. flitten years ago, and he would like to know why the present Boards should feel themselves bound to any such contract. He therefore offered a resolution directing the Clerk of the Common Council to advertise for and award a contract for the public printing, in accordance with the terms of the charter; and in support of his resolution Mr. Pinckney said this was the proper course to pursue, to award the contract to the lowest bhilder. Probably the Board were not aware of the fact that each session of the Board cost \$800 in printing and advertising. The contract for the printing should be awarded to those who would do the work the cheapest, and this had not been the case for the lass fiften years. Why not let the mechanics have a chance to bid for this work as well as large firms?

The resolution was referred to the Committee on Printing and Advertising:

Yeas—Assistant Allermen Monaghan (President), Cunningham, Cukih, Daly, Bryan Reilly, Houghton, Jr., Lyaaght, O'Seill, Fettit, Robinson, John Reilly, and Med. Weth—all Democrate. Nays—C. C. Finckney, Stephen Roberts, and Geo. W. Cregier, Republicans.

Mr. Pinckney wanted the resolution adopted at more by the Board, but the Board voted this motion down. He themselves.

Mr. Gibney objected, and said that his colleague must not think that because half a dozen members of an outside committee were listening to him, he sould force the Board to stultify itself by any such justy or imprudent action. This motion was also just by the same party vote.

THE LETTER THAT DID IT ALL. The Committee of the Workinmen's Union, after the adjournment of the Boards, adjourned to Sweeney's liotel. Mr. Strik took the chair, and Mr. Browning presented his report of the action of the Common Council (given above), together with his adorts during the interval since their last meeting. The following communication had been transmitted by him to the President:

President Coman, Board of Aldermen, &c.
DEAF Siz: I enclose herewith a communication in relation to the artistical contract awarded to Mesers.

Jones & Rogers, who refuse to pay the scale of Type graphical Union. Jone & Rogers, who refuse to pay the scale of Typographical Union.

You or I are perhaps not as conversant with the precise differences between the scale of the employers and the employed as those who are directly concerned; and while it is evident the employers have been heard in this cause, the printers have been denied; therefore this cause, the printers have been denied; therefore this instace be done our sister organization. How the Committee has been treated, I need not mention here.

So far my investigation of this business has developed these facts. First, that there is not a fair competition for the city printing; second, that the city is paying for an expectation of the state of the conjugation of the city printing; second, that the city is paying for the city printing; second, that the city is paying for the city printing; second, that the city is paying for the city printing; second, that the city is paying for the laboring classes, and therefore the workingmen will be justified if their influence is directed in such a manner as to cause a reform in this particle at.

Respectfully.

J. W. BROWNING.

Chairman of Committee.

New York, March 9, 1989.

The foregoing and another letter were sent to the

NEW York, March 9, 1889.
The foregoing and another letter were sent to the President of the Board on Tuesday. On Wednesday Mr. Browning saw Alderman Coman, who told him that the Committee on Frinting had met and adopted a report, which would be presented on Thursday, and he thought it would prove satisfactory to the printers.

GIVE THE CO-OPERATIVES A CHANCE. GIVE THE CO-OPERATIVES A CRANCE.

Mr. Troup hoped that this Committee would ne rest here. It should go to work now, and bring le fluence enough to hear to compel the Common Coursell to give this printing contract to the lowest bid der, and he hoped that the new Cooperative Printin Association would be ready to bid for the work The present contract, he contended, is illegal, having been made by a body no longer in existence, no even by succession of name.

PEELING FOR THE BOTTOM OF THE PUBLIC Mr. Stirk, yielding the chair to Mr. Browning, so that the proceedings of the day had proved at the tween capital and labor, and the result is refutation of the report of the Aldermen Committee on Printing, which had asserte that, in such a contest, capital would sur iy win, This instruction he looked upon as bid by the Committee to the party having the longe rurse and the most money. But while he had it doubt that many dollars had been spent by the other side, still the influence of 60,000 workingmen, without spending a cent, had compelled the Board of Adermen, to adopt the resolution sub-altitude for Committee's report, directing the windrawal of the Corporation printing in case of the revised of Wykoop & Hallenbeck to pay the prices demanded the printers.

the printers.

THE WORKINGMEN EUCHRED AGAIN.

Mr. Egan thought that the Aldermen had stultified themselves. They express sympathy with the workingmen, but in the same resolution and report practically tell Messrs, Jones & Co. that they are not bound by their resolution. In his opinion neither report amounted to anything, but in law he believed that that reported by the Committee on Printing would stand the best chance. He would except Alderman Ward from any misbehavior in the matter.

Mr. Nelson Young would make no exceptions at all. He insisted that a stulted effort had be, a mate in both Boards to insult the Committee of Workingmen, and he hoped that they would not let the insult pass unsofteed.

Mr. Conrad Kuhn and others of a delegation from the Cigar Makers', Caloneimskers', and other Ger

them.

Mass Meeting of workingmen.

Mr. Taylor called for the report of the Committee on Mass Meeting, which was given by Messes. Browning and Troup. The Cooper Institute has been secured for Tuesday evening, the 23d inst., when one of the largest gatherings ever convened in New York city will fill that hall and its environs. The Committee propose to form a procession at a central point beforehand, and invite Brooklyn and Jersey City trade societies to unite with their New York brethren, as the fight of all.

CARNYING THE PRINCIPLE TO THE POLLS.

Mr. Troup moved that this Committee report back to the Workingmen's Union, and in connection therewith he offered the following, which was adopted:

Resolved, That this Committee ask the Workingmen's
Union to instruct its Committee on Mass Meeting to report the names of two persons from each ward to compose a Workingmen's teeneral Committee, while to the
railfaction of the Cooper Institute meeting, and that
said Committee have power tolorun Laour Leagues in
their respective wards for the express purpose of electing workingmen to represent the workingmen's interest
in all branches of our Government.

THE EAST RIVER BRIDGE.

The Plans Adopted and the Work Soon to be Begun-Interesting Facts in Civil Engi-neering-Immease Mass of Masonry. The Board of Consulting Engineers adjourned

esterday, after a careful examination of the planand theories of the Constructing Engineer, Mr. Roebling. The first point on which they unanimous decided was that there is nothing impossible in the building of a suspension bridge of so great a substratum of boulders which the current cannot act upon or wash away. But on the Recorder is a substratum of boulders which the current cannot act upon or wash away. But on the New York side the foundation would have to be had upon a quickson of the bodings showed that this quicksand is not a recent deposit, but the original decomposed rock which has iam numberiess ages just where it is now. The weight of each tower is to be \$75,000 tons. To distribute this vast weight so that no part of the pressure on the bore shall be over four tons per ford, Mr. Roebling proposes that the area of the foundation shall be 165 feet long, and 100 feet broad. This area will be composed of huge timbers resting on the sand and bearing the masonry work of the tower upon in. The timber will be 20 feet thick, and this mass of 20 feet by 125 feet by 100 feet will be securely builded into one solid frame, so that the weight of the tower above can never deflect it in the slightest degree at any point. As to the durability of the timber, the nd theories of the Constructing Engineer, Mr

Ritealism in Williamsburgh.—The members of St. Paul's Charco. Williamsburgh, are excited upon ritualism, and the coming election for wardens and vestrymen excites hively discussion. In a manifesto just published, the rector, the Rev. Mr. Maybin, declares that, by virtue of his high office, he has a legiminate right to designate whom he should prefer to act as wardens and vestrymen in his charch.

his church.

The New Avenues.—The Kings County Supervisors yesterday afternoon adopted the form of an act laying out roads through the county towns to conform with the principal streets and avenues leading out of the city of Brooklyn. The object is to connect the city with the shores and bays on the south side of Long Island by means of roads not less than 60 feet nor more than 100 feet in width.

Marrower Converses, The Western Monthly of the city with the shores than 100 feet in width.

Methodist Conference.—The Wesleyan Methodists of New York assembled in conference yesterday in the First Methodist Meeting House, in Grand street, Wilhamsburgh. An organization was cliected by the election of the Rev. Dr. S. S. Baker, President, and the Rev. George W. Dikeman, Secretary. The Conference decided that the President should have no permanent location. The Conference will continue in session several days.

The Deleware, Luckawanna and Western Rail-road and the Morris and Easex Railroad issue tickets at half price to clergymer living along the line of the road.

The Presbytery of Newark installed on Wed-nesday evening the Rev. Wm. T. Findley as Pastor of the Central Presbyterian Church in Washington street.

By the will of the late Mrs. Mary Rogers of Newark, several thousand dollars are bequeathed to theological seminaries for the education of indigest young men, and other large sums of money are be-queated to publical, educational, religicus, and colo-nization societies.

RELIGIOUS INTELLIGENCE

THE PERSECUTED METHODISTS.

A Startling Expose of the Doings of Hoboken Politicians-Lumber Yards and Hog Pens versus Churches. Sin: I have been very much interested in the

ontroversy between an "Old Citizen" and the M. Church of Hoboken, and have been surprised that o member of the said church has exposed the worst cature of the whole case; and, with your permis-ion, I will call the attention of your readers to it. At the same time that the block in question was market purposes, and also a plot of ground in Hud-son street for church purposes. The said market square is now encumbered with a number of shau-ties, occupied by grocers, fish dealers, and butchers. There is also on one corner an engine house, and the spare space which is left is used as a lumber yard,

The members of the City Council, foreseeing that at some future time they would need a place to bury themselves, like prudent men set themselves to work to scenre such a place, and found the desired concinsion that, as none of them belonged to any church, nor were they likely to stand in need of minsterial services, the best thing they could do was to seil this church plot and pay for the cemetery; and was no sin for them to commit this disgraceful set, but it was too bad to let any church stand on their property, and the suit of ejectment was commenced

perty gave E. A. Stevens one-half of it for a guarantee deed of the remainder. If this is the fact, how simple point at issue is; Shall rum and infidelity sidered an encumbrance. A small straw in the Couneatch votes. An old citizen made a motion that be annulled, while at the same time the Martha Instiments. The simple explanation is, the latter is a

CLERGYMEN IN CLOVER.

The Salaries of the Clergy of Trinity Clurch Increased-Immense Assessment on the Property of the Corporation for Extending

Church Street. The ministers of Trinity Parish may well say with the Psaimist, that their "lot has been cast in pleasant places." Unlike other elergymen who follow n the footsteps of the Apostles, and have neither purse nor scrip, they are not dependant upon the contrifor their support. The rich and powerful corporaion from whose treasury they receive their incomes solds real estate whose rents support them in their official capacity, worth over sixty millions of dollars— a very large amount when it is considered that only arbitrary interest in its distribution. It is, how tion, or rather the vestrymen, are liberal in the dis-tribution of the colossal fund which they handle, and shurchmen will doubtless rejoice to learn that their generosity has been illustrated in raising the

salaries of the clergy. PETITIONS FOR INCREASED SALARIES. The movement, however, was not spontaneous of the part of the may dignitaries who control the chor-mons income of the Church. "Great bodies move slowly," and the proverb was never treer than in the case of Trinity Corporation, which repeatedly laid the petitions of the ciergy for an increase of salaries on the table. One worthy priest—a pillar of old Trinity itself—whose intonations of the choral service are such as resound through English cathedrals, having been in receipt of only \$2,500 a year, made several unsuccessful applications to have the sum increased. The vestry took little if any notice of his humble applications until a short time ago, when they raised his salary to \$10,000 a year. In addition to this, he receives \$1,700 per annum as a Professor in the Theological Seminary. This tardy some commentations, but it would have been more

Senator Crowley on the Tax Commissioner Bill. In the State Senate, on Wednesday, Senator

sioner bill, presented the following reasons in writ

That the office of Tax Commissioner was first created by the act of the Legislature passed March 20, 1255. By that set the H-ard of Sucervisors of the city and county of New York was authorized to appoint three persons to be known as Tax Commissioners. The persons so appointed were to be classified into three classes—one to hold office one year, one two years, and one three years; and the Board of Supervisors was authorized, upon the expiration of the term of office of any Tax Commissioner, to make a similar appointment. This continued until 1557, when a law was passed providing that there should continue to be, as then previded by law, three Tax Commissioners, to be increater designated Commissioners of Taxes and Assessments; and it also declared that the persons then holding such office should continue to hold the same until the first Wednesday in July of 1859.

At the time of the passage of the acts, Joseph W. Brown, Jonathan W. Allen, and Amor J. Williamson were the Tax Commission rs, and continued to hold said office until the reappointments in May, 1859. The Legislature of 1850 gave the Comptroller of the city of New York power to appoint these officers, who should hold office for the period of four years, and until others were appointed in their places. In May, immediately after the passage of this act, Robert T. Haws, then the Comptroller, reappointed the old Commissioners.

At the end of the dive years and in May, 1864, Mathew T. Breman, then the Comptroller, removed the aforesaid Commissioners and appointed Jonatian W. Allen, Christian B. Woodruft, and Geo. 187 Purser. The right of the Comptroller to renew the appointments to the office in pursuance of the act of 1869 was calausted by a single exercise thereof, in abstance declarant in the interface of the act of the person of the act of 1869 was calausted by a single exercise thereof, in

ments was contested in the courts, and the case was taken to the Court of Appeais. The latter Court held that the authority of the Comptroller to make appointments to the office in pursuance of the act of 1852 was calcusted by a single exercise thereof, in substance declaring that the persons appointed by Mr. Brennan had no right to exercise thereof, in substance declaring that the persons appointed by Mr. Brennan had no right to exercise thereof, in substance declaring that the persons appointed by Mr. Brennan were ousted and the old Commissioners restored.

The office continued in this position until April, 1867, when the Legislature passed a law giving to the Governor and the Senate the authority to appoint three commissioners. Under this act Gov. Fenton appointed three tax commissioners, who quainfed and assumed the duties of the office. The constitutionality of this law was contested and taken to the Court of Appeals. That Court decided that the office of Counsissioner of Taxes was exclusively a city one, and therefore the act was in violation of the Constitution of 1846. Under this decision the men appointed by the Governor were ousted, and the Commissioners of 1859 reinstated.

The Commissioners of 1859 reinstated.

The Commissioners of Soff reinstated.

The Commissioners of office would no longer exist to make valid assessments, nor could any new taxes be levied or collected until fresh legislation should be had to put the office in working condition.

Under these circumstances your Committee have thought it proper, prudent, and necessary to provide, by legislation, a remedy for the defects already existing in relation to this office, to remove the uncertainties relating thereto, and to avoid further illigation, as intention and extra salaries have already cost the city in connection with this office, since 1864, over \$20,000, springing from its present condition.

THE OCEAN MURDERS.

Investigation Yesterday - Escape of the Captain and Officers of the chip James Forster, Jr.
The ship James Forster, Jr., previously reported

as having ship fever on board, was permitted by the Health authorities to come up to the city yesterday morning. Those passengers not affected with the during her trip from the lower baygwas, and is still, in the hands of the Harbor Police, the Captain and first mate having deserted the ship yesterday, fearing arrest. The vessel shows evidence of hard usage, a might have been expected from a remarka-bly stermy passage of twelve weeks. Al-though she has been cleaned and fumigated, there yet remains a sickening odor amidships Commissioners O'Gorman, Bissenger, and Kapp, a Committee of the Beard appointed to inquire into their case. Two witnesses named Carey and Gainor were examined, who spoke of the brutality of the first mate and carpenter, and narrated a frightful tale of a beating which the latter gave a passenger named Scott, who died of his wounds. They also say that their food was inferior, and that the free's water was their food was inferior, and that the free water was diluted with salt water. The fever they attribute to the incapacity of the ship's surroon and the neglect and brutality of the officers of the vessel. The examination was declared informal, as the law requires that the defendants shall have notice. The investigation was therefore adjourned until this morning at 11 o'clock, and Mr. Casserly, fine superintendent of Castle Garden, gave instructions to have official notices served on the consignees and charterers of the ship, as also on the captain and officers. Information has also been sent to the United States District Attorneys, Courtney and Tracy, informing them that the statement of several of the "James Fester, Jr., in the murder of the saliors.

83% caused more activity at the noon call, and a rise of 160% & cent. was recorded. The market continued to strengthen at the afternoon Board. 1881s, 1862s, 1864s, and 1865s, new, being especially strong. About 4 o'clock, a further improve-ment of & & cent. in London created an active demand for all classes of Government securities, most marked in 1862s, for which 119% was bid, and

1867s, the general market closing very strong with slight offerings on the part of haman. The appointment of Mr. Boutwell as Secretary of the Treasury was received with general satisfac-tion in Wall street, and the settlement of the question by such a judicious selection has produced a feeling of relief in commercial circles. Mr. Pont-well will greatly add to the national credit both in this country and Europe, and during a long public career his large common sense, broad views, and sterling integrity have been especially prominent, while not a shadow of suspicion or reproach has ever been reflected upon his public character, even among political opponents. The new Secretary is known to be heartly in sympathy with all measures calculated to maintain the national honor, and upof Hooper's bill for terminating the Issue of 6 P in coin. The passage of the Schenck bill in the Senate by a strong vote this afternoon, will further

In the share market railway stocks have presented day having been on a restricted scale, at declining quetations. The principal dealings were in New York Central, Michigan Southern, Rock Island, Ohio and Misalssippi, Pacific Mail, and the Northwest shares. At the morning sessions the market was kept stendy. Vesterday, the Exchange Satesroom was filled to its utmost capacity by buyers, speculators, sellers, and spectators. The property offered was all of the very best description, decirably located, and sold on very easy terms. The Brooklyn lots, sold by Johnson & Miller and Wyckoff & Little, yielded the best prices. The property sold yesterday is situate in New York, Brooklyn, Flatbusen, and Elizabeth, N. J. As usual, the competition was brisk and the prices and Rock Island; the New York Central; realized were satisfactory to both buyer and seller. and Rock Island; 1% P cent, in New York Central;

2. P cent, in Northwestern steaks; % P cent, in Ohio and Miesissippi and Reading; and % P cent, in Pacific Mail.

Of the miscellaneous shares Canton and Adams Express declined 1 P cent; Mariposa, % P cent, and the preferred, % P cent, quicksiver was steady at 23%,625; and Western Union Telegraph, 37% 67%.

The following were the prices at the regular morning Board compared with those of yesterday:

West. Thurs. Adv. Dec.
